SC-MX20

Compact Memory Camcorder

Camera features

Compact Memory Camcorder

34x optical; 1200x digital zoom
Variable speed control is activated by automatic sensing of the amount of pressure applied to the zoom tab.

680K pixel video CCD delivers high-resolution video images with superior color resolution and detail. It surpasses the conventional camcorder with digital quality and its PC interface.

SD/MMC Memory card slot: The memory camcorder's external memory slot accepts both SD cards and MMC. Quickly and easily transfer and play videos, images, music and documents using the memory type of your choice.

2.7" LCD Color viewfinder

Advanced image stabilization minimizes unwanted picture shaking caused by hand movement during recording.

USB 2.0 (high speed) using USB 2.0 the images or movie clips can be downloaded to a PC 40 times faster than with USB version 1.1.

Specifications
